# Learn From Industry Experts

With a combination of talent and global expertise, our faculty enlivens the classroom experience through a variety of teaching styles.

“ Can businesses make profit and yet act with care for the greater societal well-being? The Business and Society course will tie in the topics covered in the Financial Reporting, Managerial Accounting, Valuation, and Applied Microeconomics classes, and provide answers to align firm actions and successful societies. ”

### Mark Stabile

Professor,  
Economics  
The Stone Chaired Professor in  
Wealth Inequality

“ The combination of Big Data and major advances in Machine Learning have made it a necessity for businesses to rely on people who understand how to best use data and best work with “intelligent machines”. We will learn to be most effective in the world of data, AI, and technology with courses like Data Analysis and Data Science for Business. ”

### Theodoros Evgeniou

Professor,  
Decision Science and  
Technology Management

“ The future of organisations depends on their ability to constantly reinvent themselves through innovation, be it human-centered innovation, research and development, or fostering new ways to operate in order to make sustainability across stakeholders a priority.

We will engage around the field of innovation during the field trip to the country that has the highest number of patent applications on inventions – China. ”

### Rose Luo

Associate Professor,  
Entrepreneurship and Family Enterprise

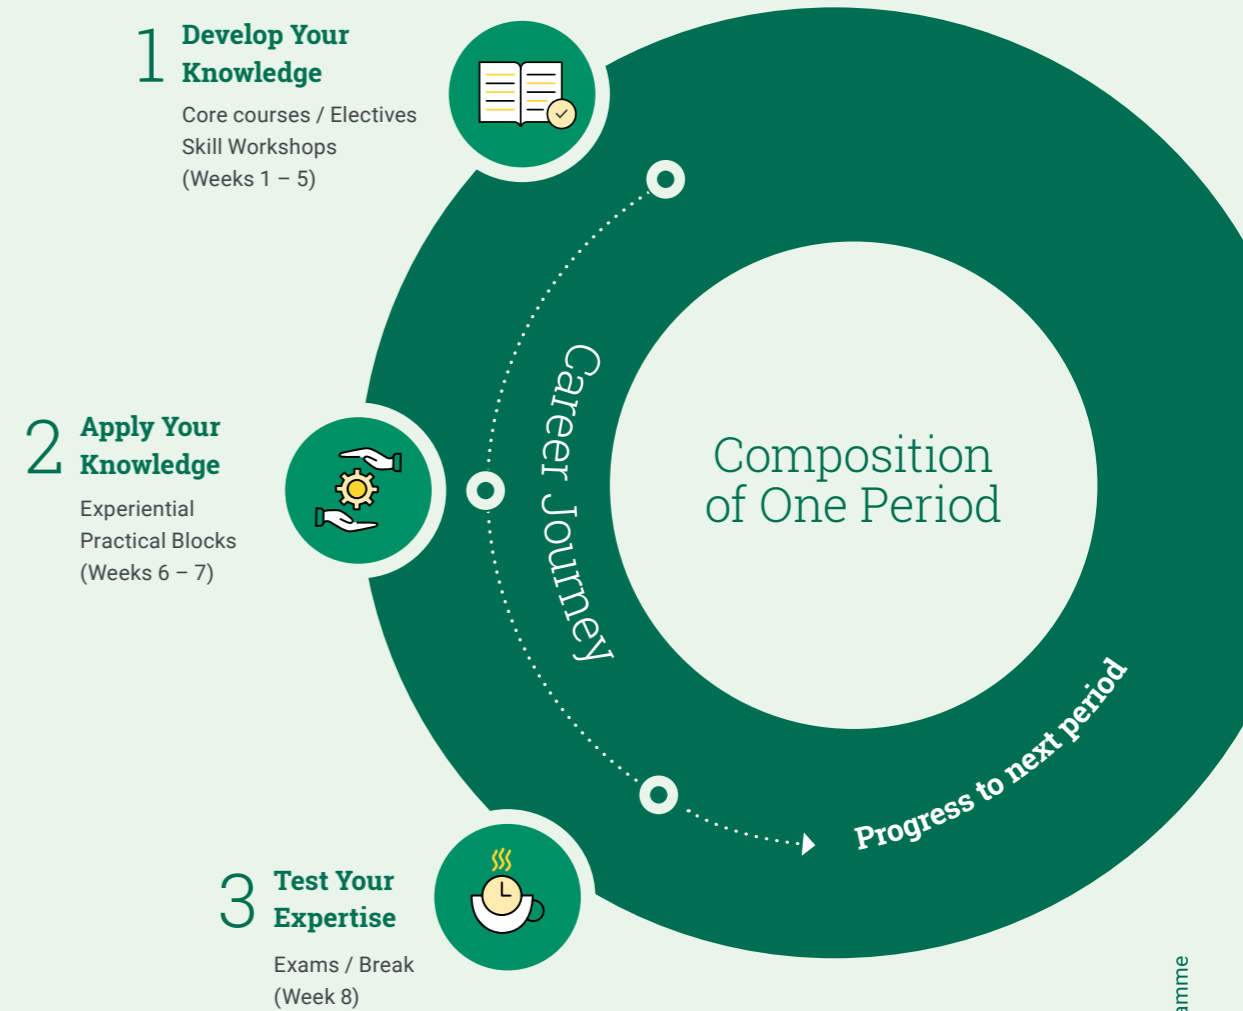

“ Human capital is the greatest asset of organisations. What makes the difference between a successful team, or organisation, and one that is struggling often relies on how people behave and interact. In Social Psychology, we will study these interactions, and explore how great teams – and great leaders are built. ”

### Eric Luis Uhlmann

Associate Professor,  
Organisational Behaviour

# An Enriching Learning Environment

The INSEAD MIM is a rigorous 10-month full-time programme consisting of five periods, each lasting eight weeks and concluding with an exam and/or project. Core courses or electives take place during the first part of the programme, which provide you with a robust foundation of key management disciplines. There are also skill workshops to equip you with crucial skills that are most sought after by employers. In the second part, you will be able to apply what you have learnt in the classroom through experiential practical blocks.
